

- **New De'Longhi "LatteCrema System": Enjoy a perfect mix of pleasure. A creamy cappuccino, with dense milk foam, always at the perfect temperature... until the last drop.**
- Automatic cleaning integrated in the froth regulating dial permits you an easy cleaning of the whole milk carafe components - so the milk carafe can be turned to the fridge after use.
- Hot water spout can be used for delivering hot water for tea or infusion.
- Choose your favourite milk beverage in the Milk Menu: caffelatte, latte macchiato, flat white and milk - tailor your perfect drink.
- Intuitive soft touch control panel with two text lines display and 16 languages for using the machine in a clear and simple way.
- Long Coffee button for Drip coffee lovers.
- Personalising coffee as often as you want has never been easier. Choose from short, medium or long, try a strong or extra mild aroma, enjoy it piping hot, medium or low temperature.
- The machine can be used with either coffee beans or ground coffee.
- Prepare two cups of coffee with a single brewing cycle.
- Integrated coffee grinder with 13 adjustable settings.
- Coffee bean container with aroma saving lid.
- Removable brewing unit for easy cleaning and maintenance.
- Programmable automatic shut-off and switch-on.
